ASQ-TRAK2

Talking about Raising Aboriginal Kids

User Guide

User guide

The ASQ-TRAK2 is the authorised adaptation of the **Ages & Stages Questionnaires®, Third Edition (ASQ®-3)** for Aboriginal and Torres Strait Islander families. The ASQ®-3is a parent-completed child monitoring system. For further information on the ASQ®-3 go to **agesandstages.com**

The ASQ-TRAK2 differs from the ASQ®-3 in several ways. It is shorter (the general questions at the end have been removed); the English is modified to be simpler; every item is illustrated; a flip chart has been added to be used in conjunction with the questionnaires, so that caregivers can follow along; and finally, in contrast to the ASQ®-3, the ASQ-TRAK is not designed to be given to caregivers to complete on their own. It is designed to be administered by interview so that it is completed together with caregivers. To find out more about how the ASQ-TRAK was developed and the research behind it, go to **strongkidsstrongfuture.com.au**

It is strongly recommended that anyone using the ASQ-TRAK complete the accredited ASQ-TRAK training. This will ensure the ASQ-TRAK is used in the way it has been designed to be used and maintain the quality and cultural safety of the tool.

STRONG kids, STRONG future
Supporting child development pathways

We wish to recognise the generous contributions of the communities who participated in the development of the ASQ-TRAK and the organisations that have supported this work.
